Telegraphic Address
"SENORGEN"

OFFICE OF THE SENIOR SURGEON,
MYSORE GOVERNMENT,
Dated Bangalore, the 6th April 1922.

L 6245

8 APR 1922
LOCAL SELF GOVT. BRANCH.

GEN. & REV. 8-APR 1922

FROM

The Senior Surgeon with the Government of
His Highness the Maharaja of Mysore,
Bangalore.

To

The Secretary to Government,
Revenue Department,
Bangalore.

SIR,

I have the honor to state that the accommodation available in the Residential Quarters of the Victoria Hospital has proved to be utterly inadequate for the present strength of the Medical School. For want of a lecture hall sufficiently big to hold classes in Medicine and Surgery they are now being held in the Female Out Patient waiting room in the main building of the Victoria Hospital.

The new Out Patient's Dispensary building is nearing completion and when the Out Patient Department is removed thereto, and the present waiting room is converted into a ward for in-patients, other accommodation will have to be found for holding lecture classes. None of the rooms in the new building is big enough for a class. The idea of constructing a School building on up to date lines has to be given up for some years to come. All the same, the School is growing in popularity and strength and the need for increased accommodation is pressing.

I happened to see the old A Power Station in the market square. All the transformers have been removed to the new A Station and the old building is practically vacant but for the retention in a corner, of a telephone exchange office for the direct lines between Bangalore, Sivasamudram and Mysore.

P.T.O

If this exchange office is also combined with the new A Station as it was with the old A Station, the whole of the latter building could be made available for the Medical School and the expenditure on the construction of a Medical School building could be avoided for some years at least.

I was given to understand that the building might possibly be required by the Electrical Department two or three years hence to install a new Power Station to serve Visvesvarapuram and Basavanagudi. This is a remote contingency and, perhaps, it will be more convenient to have the power station much nearer those extensions viz., some where in the open ground at the entrance to Basavanagudi. At all events, instead of wasting the big building on a small exchange office it will be more economical for the present to use it for the Medical School the requirements of which have to be met without any delay. The building if properly partitioned could be made to hold the four classes of the Medical School. The residential quarters now occupied by the School will then become available to be given to the Medical Officer, Victoria Hospital, on payment of rent, an arrangement which will add to the efficiency of the working of both the Hospital and the School, besides bringing to Government some income in the shape of rent.

The Chief Electrical Engineer whom I consulted informally, did not seem inclined to part with the building on the ground that he may require it about two years hence. Both the Electrical and the Medical Departments are branches of the same service and it is for the Government to make such adjustments in its resources as may best suit the needs of the several branches of its service. I request a very early consideration of this question as it will not at all be possible to hold the classes next year with the existing arrangements.

I have the honor to be,
Sir,
Your most obedient servant,

K.B. Raghavendra

Senior Surgeon.

BSR/SRA.

Letter No.3796 dated 2nd July 1921 from the Chief Electrical Engineer of Mysore, to the Secretary to the Government of Mysore, Public Works Department, Bangalore.

Acquisition of land New "A" Station.

I have the honour ~~to~~ in enclosing a copy of letter No.2247 of the 29th June 1921, received from the President, Bangalore City Municipality, to state that we want to keep permanently the old "A" Station for the purposes of a Sub Station the same as "B" and "C" stations and to request that you will kindly dispose of the question in this manner.
